

Adventure Play

Toddler Sense classes start in our adventure play area. It's a great way of enabling children to settle into the class at their own pace. The play area will contain a variety of equipment including soft play, bouncy castles, balancing beams, tunnels, and tents which is great for the more energetic/confident children to burn off some energy before settling down for the activities which follow. Children are encouraged to use the equipment in imaginative ways to fit with the week's theme. We have a huge range of equipment and resources; the children can't wait to see what they will find set up each week. This encourages even the most nervous/least mobile children to explore which is great for developing their gross motor skills.

Activities

The adventure play time is followed by a 20 - 25 minutes activity session. Toddler Sense activities are rich in sensory exploration, imaginative play, much loved songs, dance and creativity. Activities are kept short, dynamic and fun and include props that engage the children in the action! This part of the session is carefully planned to support the development of communication and social skills, including turn-taking and co-operation.

Come and give Toddler Sense a try

Contact **Liz** at **midcheshire @toddlersense.co.uk** to book your classes.

We have our very own hello and goodbye songs included in the activity session. These use repetition to help progress language skills, rhythm sticks to aid hand-eye co-ordination, a strong beat to tap your toes and simple words so your toddler can join in. Children are encouraged to collect their own equipment, if mobility permits, and to help tidy up which promotes independence and a sense of well-being.

We've done the research; so you can enjoy the fun...
